

Swiss Active Optical Device 400G

Overview

The AOC 400Gb Active 30m QDD-400-AOC30M is a high-performance active optical cable specifically designed for data transmission in high-speed networks. With a length of 30 meters, this cable provides a reliable connection between QSFP56-DD ports and is fully compatible with Cisco devices. It. QSFP56-DD 400GBase-AOC QSFP56-DD to QSFP56-DD Active Optical Cable 30m (QDD-400G-AOC-30M) 100% Compatible Juniper. Specifications may include unverified machine translations. How often does a product of this brand in the «Transceivers» category have a defect within the first 24 months?

How many. Delivered between Tue 23. 25Gbps PAM4 transmitter and PAM4 receiver. Both ends have 4 channels 850nm VCSEL array and 4 channels PIN photo detector array. What are the applications for QSFP112 AOC?

What are the standard supported lengths?

What are the operating specifications?

400G. Lumentum's 400G QSFP-DD Active Optical Cable (AOC) provides high-speed, low-latency optical connectivity for short-reach interconnects in hyperscale and enterprise data centers.
