

T-shaped connector for cable trays

Overview

An add-on tee for cable tray is a specialized fitting designed to create a T-shaped junction in a cable tray run, allowing for the branching of cable routes at a 90-degree angle. Ideal for electrical contractors. The wall-mounted bracket features an integrated coupler for quick and easy installation, enhancing overall work efficiency. Corrosion-resistant galvanized coating protects against bad weather, moisture, and rust - ensures a long service life even in harsh environments. These branches are used to efficiently and safely connect cables from different sources or to direct them to multiple routes. This innovative system comprises a horizontal platform with a vertical spine, creating an. Discover a comprehensive range of high-quality cable trays and cable ladders at ekabel24.com - the reliable choice for safe, organized, and standards-compliant routing of power, data, and control cables.
