

Terminal Box 12

Overview

This 12 port fiber access terminal box is designed to connect feeder cables to subscriber drop cables for FTTH last-mile fiber connectivity. It integrates fiber splicing, optical signal splitting, termination and cable management into a compact enclosure for indoor and outdoor. Safely conduct, connect and distribute energy in hazardous areas with R. Our products are certified for installation technologies all over the. Choose from our selection of terminal boxes, including over 4,300 products in a wide range of styles and sizes. It is equipped with 12 SC adapters and can work in outdoor environments. How can I pay for my order?

We accept T/T. 12 port fiber terminal box for DIN rail mounted applications The DIN rail type termination box is specifically designed for optical fiber connections in narrow spaces, ensuring seamless cable insertion with its oblique chamfer surface. Recommended for industrial application • Beige colored Aluminum made.
