

Tonga Circuit Distribution Box

Overview

Tonga power strips and PDU power distribution units for surface mount, rack mount and general purpose applications. A distribution box, or DB box, is a circuit breaker enclosure. The hub distributes electrical power from a single input source to various circuits throughout a building. With roots dating back to 1993, the "tongou" brand has built strong expertise in traditional circuit protection. The GGJ-type low-voltage distribution reactive power compensation integrated cabinet is a new-generation outdoor distribution cabinet designed based on the principles of safety, economy, rationality, and reliability. It is suitable for urban and rural grid renovations, industrial and mining.
