

UAE Gigabit Layer 3 Aggregation Switch

Overview

The Switch Pro Aggregation is a fully managed, Layer 3 switch with (28) 10G SFP+ ports and (4) 25G SFP28 ports designed to enhance your network's switching capacity and performance by creating high-bandwidth aggregation links. The GWN7830 series are Layer 3 aggregation switches that allow enterprises to build scalable, secure, high-performance, and smart business networks that are fully manageable and support maximum capacity. Maintain peak transmission efficiency and secure your data plane. Equipped with static routing, inter-VLAN routing, and policy-based forwarding, this switch optimizes bandwidth with built-in QoS prioritization. Engineered for demanding environments like data centers, campus networks, and large businesses, this switch provides the high-performance, reliability, and. Introducing the Grandstream Layer 3 Aggregation Network Switches GWN7832, a premier solution engineered for the most demanding enterprise networks.
