

UK Huijue Fiber Optic Patch Cord

Summary of Content

Huijue fiber optic patch cords are high-quality pre-terminated cables available in single-mode and multimode types, supporting various connectors and suitable for data centers, LAN, FTTH, and CATV applications.

Overview

Huijue fiber optic patch cords are pre-terminated cables designed for connecting optical equipment, extending links, and testing optical networks. They are available in Single-Mode (SM) and Multimode (MM, OM3/OM4) variants, supporting FC, LC, SC, and other mainstream connector types. Both UPC and APC polishing options are offered, and cables come in Simplex or Duplex configurations .

Fiber Types and Performance

- Single-Mode (SM): Uses G652D or G657A fibers with a 9μm core, suitable for long-distance transmission with low insertion loss and high return loss .
- Multimode (MM): Includes OM3 and OM4 fibers with a 50μm core, supporting high-speed data links up to 10 Gbps over distances of 300-550 meters .
- Durability: Cables are designed for low insertion loss, excellent repeatability, and reliable performance in demanding environments .

Connector Options

Huijue patch cords support a wide range of connectors commonly used in optical networks:

- LC, SC, ST, FC, MTRJ
