

Ultra-high-speed optical cable

Overview

6-foot) reach and active optical design in longer models, these cables help you connect displays, cameras, and content sources at larger distances without extender-clutter and extra power sources—reducing failure points and support overhead. Ultra High Speed HDMI™ Cables by Cisco® enable your team to explore uncompromising bandwidth, pristine 8K audiovisual signal clarity, long reach, and enterprise-grade cloud management with a new generation of High-Definition Multimedia Interface (HDMI)*-enabled conferencing cables. 2 Specification introduced the latest cable – the Ultra96 HDMI Cable – that supports up to 96Gbps bandwidth. Triple-layer shielding and graphene nano technology minimise electromagnetic interference, supporting. CP–AOCH/UF is an innovative active hybrid optical HDMI cable for sending 8K signals up to 100 meters (328 ft). CP–AOCH/UF is thinner, lighter and more flexible than most of the copper or even standard optical cables. It offers transparent EDID and HDCP support with no signal attenuation and reduced. The 8K Ultra HD resolution offers a more immersive viewing experience, with sharper high speed content. The eARC feature provides support for the most advanced audio formats, including object-based. The Monoprice™ SlimRun™ AV 8K Certified Ultra High Speed AOC HDMI® Cable enables full 8K performance over distances up to 65 feet.
