

Xiaomi 10 Gigabit Router Directly Connected to Fiber Optic Cable

Summary of Content

The Xiaomi 10 Gigabit Router fully supports fiber optic connections with dual 10G ports, tri-band Wi-Fi, and high-speed wired and wireless performance for advanced home or office networks.

Key Features and Fiber Compatibility

The Xiaomi 10 Gigabit Router is designed to handle 10Gbps fiber optic internet without bottlenecks, making it suitable for high-speed broadband plans . It features dual 10G ports (RJ-45 and SFP+) that allow direct connection to a fiber modem or switch, ensuring full utilization of your fiber line . Additionally, it has four 2.5GbE ports for distributing high-speed connections to multiple devices simultaneously .

Wireless Performance

The router supports tri-band Wi-Fi 7, including 2.4GHz, 5GHz, and 5.8GHz bands, with a theoretical combined wireless speed of up to 10Gbps . It includes 12 high-power antennas and signal amplifiers for 360-degree coverage, ensuring strong connectivity even through walls . Features like Multi-Link Operation (MLO) and AI-powered interference resistance optimize performance for gaming, 8K streaming, VR, and large file transfers .

NAS and Storage Support
